

CLASS B MISDEMEANOR MANUAL

2011 COMPREHENSIVE EDITION

[Effective March 1, 2011]

INTRODUCTION

During the 1993 Session of the General Assembly, our legislature enacted new sentencing laws which changed how offenders are sentenced in North Carolina. The new laws, primarily based on concepts developed by the North Carolina Sentencing and Policy Advisory Commission, created a system of structured sentencing in North Carolina designed to be implemented with a comprehensive community corrections plan. The new laws, which reclassified misdemeanors and certain felonies, replaced the Fair Sentencing Act and apply to crimes committed on or after October 1, 1994.

Since this new manner of sentencing directly impacted the Commission's definitions of "Class A" and "Class B" misdemeanors, modifications to our definitions were needed. Previously, the misdemeanor definitions were based upon the punishment level which the offender could have received. Class A misdemeanors were those for which the maximum punishment is less than six months, while Class B misdemeanors encompass those offenses with terms of imprisonment of more than six months but not more than two years.

To ensure equitable treatment of criminal justice officer applicants and certified officers, the Commission selected a method of evaluating misdemeanor criminal offenses which did not entail review of the punishment levels of each North Carolina offense alone. In essence, the Commission looks at the status of an offense rather than only the maximum possible punishment which could have been imposed. Under the Commission's current rules, those offenses classified as "Class B" misdemeanors will be listed in a manual to be published by the North Carolina Department of Justice and incorporated by reference in its rules. With the exception of most motor vehicle offenses, any misdemeanor not designated as a Class B in this manual will be deemed to be a "Class A" offense.

Several sub-committees of the Commission reviewed each misdemeanor under North Carolina law to determine which misdemeanors should be included. These committees, and subsequently the Commission, adopted a general philosophy to guide them in this selection process. Basically, if a misdemeanor was a general misdemeanor under the old law (maximum punishment of two years) and it was subsequently reclassified as a Class 1 or Class A1 misdemeanor under Structured Sentencing, then it was included as a Class B misdemeanor. Generally, if the legislature decreased the severity of a particular misdemeanor by lowering it from a general misdemeanor to a Class 2 or 3 misdemeanor, then that misdemeanor was designated as a Class A. However, certain offenses which include as elements violence, intimidation, obstruction of justice, or fraud or willful, knowing, intentional violations appear on the Class B list. Commission members deemed these offenses incompatible with the purpose and responsibilities of the justice profession. In essence, based upon its experience and expertise, the Commission included certain offenses which had not previously been classified as Class B's, and downgraded other offenses which the Commission had determined did not rise to the level of a Class B based upon the above criteria.

In conclusion, those misdemeanors specified as Class B misdemeanors are offenses which the Commission views as the most serious and incompatible with membership in the criminal justice officer profession. Those misdemeanors classified as Class A misdemeanors are offenses which, while serious and would be considered by the Commission, do not rise to the level of Class B Misdemeanors.

CLASS B MISDEMEANOR DEFINITION

"Misdemeanor" means those criminal offenses not classified by the North Carolina General Statutes, the United States Code, the Common Law, or the courts as felonies. Misdemeanor offenses are classified by the Commission as follows:

- (a) "Class A Misdemeanor" means an act committed or omitted in violation of any common law, duly enacted ordinance, or criminal statute, of this state which is not classified as a Class B Misdemeanor pursuant to subsection 10(b) of this rule. Class A Misdemeanor also includes any act committed or omitted in violation of any common law, duly enacted ordinance, criminal statute, or criminal traffic code of any jurisdiction other than North Carolina, either civil or military, for which the maximum punishment allowable for the designated offense under the laws, statutes, or ordinances of the jurisdiction in which the offense occurred includes imprisonment for a term of not more than six (6) months. Specifically excluded from this grouping of "Class A Misdemeanor" criminal offenses for jurisdictions other than North Carolina, are motor vehicle or traffic offenses designated as misdemeanors under the laws of other jurisdictions, or duly enacted ordinances of an authorized governmental entity with the exception of the offense of impaired driving which is expressly included herein as a Class A Misdemeanor, if the offender could have been sentenced for a term of not more than six (6) months. Also specifically included herein as a Class A Misdemeanor is the offense of impaired driving, if the offender was sentenced under punishment level three [G.S. 20-179(l)], level four [G.S. 20-179(j)], or level five [G.S. 20-179(k)]. Class A Misdemeanor shall also include acts committed or omitted in North Carolina prior to October 1, 1994 in violation of any common law, duly enacted ordinance or criminal statute, of this state for which the maximum punishment allowable for the designated offense included imprisonment for a term of not more than six months;
- (b) "Class B Misdemeanor" means an act committed or omitted in violation of any common law, criminal statute, or criminal traffic code of this state which is classified as a Class B Misdemeanor as set forth in the Class B Misdemeanor manual as published by the North Carolina Department of Justice and shall automatically include any later amendments and editions of the incorporated material as provided by G.S. 150B-21.6. Class B Misdemeanor also includes any act committed or omitted in violation of any common law, duly enacted ordinance, criminal statute, or criminal traffic code of any jurisdiction other than North Carolina, either civil or military, for which the maximum punishment allowable for the designated offense under the laws, statutes, or ordinances of the jurisdiction in which the offense occurred includes imprisonment for a term of more than six (6) months but not more than two (2) years. Specifically excluded from this grouping of "Class B Misdemeanor" criminal offenses for jurisdictions other than North Carolina, are motor vehicles or traffic offenses designated as being misdemeanors under the laws of other jurisdictions with the following exceptions. Class B Misdemeanor does expressly include, either first or subsequent offenses of driving while impaired if the maximum allowable punishment is for a term of more than six (6) months but not more than two (2) years, and driving while license permanently revoked or permanently suspended. "Class B Misdemeanor" shall also include acts committed or omitted in North Carolina prior to October 1, 1994 in violation of any common law, duly enacted ordinance, criminal statute, or criminal traffic code of this state for which the maximum punishment allowable for the designated offense included imprisonment for a term of more than six (6) months but not more than two (2) years.

INSTRUCTIONS

This manual sets out each misdemeanor offense occurring on or after October 1, 1994 which has ever been designated by the Commission to be a Class B Misdemeanor, along with its corresponding General Statute citation.

The Manual lists the offenses in numerical order by Statute Number. It is organized as follows:

- *The first column will indicate where in the General Statutes the substantive offense is located.
- *The second column shows the statutory Short Title. In addition, if the punishment for this offense is located in a separate statute, this citation will appear in parenthesis adjacent to the title of the offense. There may also some explanatory notes.
- * The third column is new and by its insertion has made this edition of the Manual comprehensive. This column lists the dates for which the offenses were/are considered Class B Misdemeanors.
- * The fourth and final column, entitled Misdemeanor Class, will indicate the offense level under the Structured Sentencing Act. When an article of a particular chapter is designated as the substantive offense, then any criminal violation of a section in that article is included as a Class B Misdemeanor.

Therefore, in order to determine if a particular offense would constitute a Class B Misdemeanor, you should first locate the offense by either statute number or short title, paying attention to any explanatory notes in the second column, and then verify that the date of offense occurred on or between the dates specified in the third column. For example, under 14-69.1, you will find the following:

14-69.1	Making false rpt. Re: destructive device at hospital facility (14-69.1(b); 1st offense) [Repealed (b) 12/1/97]	10/1/94-11/30/97	1
---------	---	------------------	---

The parenthetical note indicates that the punishment for this offense is found in N.C.G.S. 14-69.1(b); and that the 1st offense would be considered a Class B Misdemeanor. There is also an explanatory note showing that paragraph (b) of this statute was repealed on 12/1/97. Therefore, the third column indicates that this classification of this offense as a Class B Misdemeanor is only valid for offenses occurring between 10/1/94 and 11/30/97. Note if the offense occurred prior to 10/1/94, then you would have to consult the statute in effect at the time of the offense.

As always, even though an officer or applicant is not convicted of an offense, the Commission retains the authority to investigate and proceed on the “commission of offense.”
